

**IIRB Seminar**  
**‘Advances in combined weed control’**  
**Projects to reduce the use of herbicides**

**13<sup>th</sup> May 2011**  
**at Sancourt, Somme (F)**

**Technical Programme**

08:30 Welcome by ITB (A. Quillet, M. Richard-Molard)

**Session 1 ‘Combined weed control: context and results in different countries’**

- 08:40 M. Richard-Molard (ITB): ‘Why and how to reduce herbicide use in the sugar beet crop in France?’
- 09:00 C. Muchembled (ITB): ‘Combined weed control, French experience’
- 09:20 E. Ladewig (IfZ): ‘Challenges in weed control in Germany’
- 09:40 U. Bucher<sup>1</sup>, D. Fischer<sup>1/2</sup>, (Hohenheim University<sup>1</sup>, Südzucker AG<sup>2</sup>): ‘Integrated crop protection – approaches to increase the percentage of mechanical weed control in sugar beet’
- 10:00 P. Wilting (IRS): ‘Weed control in the Netherlands’
- 10:20 J. Nyholm Thomsen (NBR): ‘Weed control under tight limitations and the way forward’
- 10:40 A. Pérez, J. Ayala Garcia (AIMCRA): ‘Is there nothing more to say about weed control?’
- 11:00 Coffee break

**Session 2 ‘Technical innovations to reduce herbicide use in sugar beet’**

- 11:30 X. Couval (Monosem)
- 11:40 R. Dumbrill (Garford)
- 11:50 D. Digard (Maschio)
- 12:00 R. Olsson (NBR): Final discussion and conclusion
- 12:30 End of seminar

There will be a lunch after the seminar.

All presentations will be published on the IIRB website ([www.iirb.org](http://www.iirb.org)) after the IIRB seminar.
