

IIRB SEMINAR 2016

**'Prevention of soil compaction
at harvest - state of the art
and new developments'**

28 October 2016

**Sugar Beet Growers Association
of the Oise region
2 avenue du Maréchal Foch,
F – 60190 Estrées-Saint-Denis**

INTERNATIONAL INSTITUTE
OF SUGAR BEET RESEARCH

PROGRAMME

1 Prevention of sub-soil compaction: research and current developments

Chair FRANS TIJINK (IRS, NL)

- 9.00 am FRANS TIJINK (IRS, NL)
Prevention of sub-soil compaction:
research and current developments
- 9.20 am HUBERT BOIZARD (INRA, F)
Impact of sugar beet harvesting
on soil structure dynamics and
consequences on cropping system
management
- 9.40 am HEINZ-JOSEF KOCH (IfZ, D), OTTO NIELSEN
(NBR, DK)
Effects of beet harvesters on soil
compaction: a status quo of research
- 10.00 am PETER WEISSKOPF (Agroscope, CH)
Terranimo® – predicting the risk of
soil compaction by farm machinery
- 10.20 am MIGUEL GABARRÓN (Cranfield Univ./
AB Sugar, UK)
A decision support tool to assist soil
management at sugar beet harvest
- 10.40 am General discussion
- 11.00 am *Coffee break*

2 What kind of machines for after 2017?

Chair JEAN-PIERRE VANDERGETEN (IRBAB, B),
VINCENT LAUDINAT (ITB, F)

- 11.30 am 10 minute-contributions
of harvester and tire manufacturers
- MARC VAN GOEY (Gilles Clermont SA)
SEBASTIAN TALG (Grimme Land-
maschinenfabrik GmbH & Co KG)
BENJAMIN VAUCHELET (Franquet SA)
MICHAEL GALLMEIER
(Holmer Maschinenbau GmbH)
MICHAEL GRUBER (Ropa Fahrzeug- und
Maschinenbau GmbH)
ROBIN VERVAET (Frans Vervaet BV)
GUILLAUME RODIER (Michelin)
- 12.40 pm Panel discussion/general discussion
- 1.00 pm End of seminar
- 1.15 pm *Lunch*
