**BlueBob**

# Sustainable future

vision >> blue®

Projects and developments for resource-saving cultivation and sugar beet production.

**phenoFieldBot** - Autonomously navigating field robot with integrated camera system for phenotyping

**phenoTest** - Automated test method for measuring germination and vigour of sugar beet seedlings.

**BlueMobil** - Innovation of trial harvest technology

**BlueBob** - Field robot for mechanical weed control in sugar beets

Strube – always by your side.
